

Disclaimer for Upgrade

This disclaimer releases RIS from any liability due to not using RIS technical / training services to perform a system upgrade. Problems including hardware / software / procedural or any other issue you may have in the future concerning your system after the self-performed upgrade.

If you are insistent on performing any upgrade without any RIS technical / training support please be aware that problems may/will arise (may be irreversible) that are preventable by using our experienced certified technical services.

I have been advised to use RIS technical services for my upgrade. _____ **Initials**

I have been advised to use RIS training services for my new version. _____ **Initials**

I have been advised of the RPRO current system recommendations. _____ **Initials**

I have declined all service options from RIS for my upgrade and will not hold RIS responsible for any problems, real or perceived, arising from the self-service upgrading of my system. _____ **Initials**
